One Penn Plaza
New York, NY 10119-0098

Reference:

Narinder Sarin
Chief - CUNY Projects
212-273-5040

Total Project Cost:

\$6,000,000

Completion Date: 2006

Project Overview:

LiRo was selected to provide programming, architectural and engineering design, construction documents and construction administration services for the relocation of approximately 50,000 sf of City College's administrative facilities. (Dormitory Authority of the State of New York, \$6.5M)

CUNY School of Architecture - Swing Space Relocation New York, NY

LiRo was selected to provide programming, architectural and engineering design, construction documents and construction administration services for the relocation of approximately 60,000 sf of City College's administrative facilities (over 14 departments) currently housed in the "Y" Building to other buildings on the City College campus in order to allow the "Y" Building to be converted into the new home of the School of Architecture. Using a critical path analysis of the project's goals, LiRo separated Design and Construction work into twelve separate packages to successfully expedite design and construction completion to meet the college's academic schedules. Relocated departments included: Admissions, Registrar, Bursar, Financial Aid, Campus Planning, Physical Plant Services, Health and Safety, Purchasing, Fiscal Planning, Computer Services, Mail, Duplication, Receiving, Writing Center, Institute for Transportation Systems, and various other services organizations.
