Total Project Cost: \$397,693,000

Completion Date: 2002

Project Overview:

LiRo provided resident engineering inspection and CPM scheduling services on major renovations and expansions to the Bay Park WPCP. (Nassau County DPW, \$398M)

Bay Park WPCP - CPM Scheduling and Resident Engineering Inspection Services

East Rockaway, NY

The Bay Park WPCP handles approximately 80 MGP of wastewater generated from the southwestern quadrant of Nassau County.

LiRo provided resident engineering inspection and CPM scheduling services on major renovations and expansions to the Bay Park WPCP. Improvements totaling almost \$400M include the following:

- Raw sewage pumps
- Sludge digestion
- Sludge dewatering
- Odor control
- Central heating
- Engine emission controls
- Sewer maintenance building
- Effluent pump station
- Secondary treatment

In addition, LiRo performed feasibility analyses for and negotiated/implemented a Project Labor Agreement for a portion of the work.
